

You will learn:

Following the morning program:

1. Participants will be able to identify the signs of a child who is grieving
2. Participants will be able to identify developmentally appropriate behaviors of grieving children
3. Participants will be able to identify the developmental implications of the illness or grief on the individual child, interpersonal relationships, and the family system
4. Participants will learn creative arts and play therapy interventions for facilitating positive emotional adjustment in grieving and chronically ill children.

Following the afternoon program:

1. Participants will understand systems theory as it relates to family counseling
2. Participants will understand the importance of implementing developmentally appropriate interventions for ALL members of the family
3. Participants will practice and participate in play therapy activities and interventions that can be utilized for all ages of family members
4. Participants will be able to apply appropriate family play therapy interventions to a case study that will be presented

CEU's

6.0 Continuing Education units are available for this conference. Providers: Association for Play Therapy # 02-124, for RPT & RPT-S. Marriage and Family Therapy #006MFT03, for MFT & MFT-S. CEUs for Social Workers are pending approval.

NVAPT 3rd Annual Conference

AM: Grieving Children and Chronically Ill Children

PM: Families That Play Together, May Stay Together

Conference Overview

- In the morning session, participants will learn the signs and stages of grief in childhood and adolescence as well as techniques to use with these children. Additionally, the developmental impact of chronic illness on children will be discussed.
- In the afternoon session, participants will be introduced to Family Play Therapy (FPT). The integration of FPT and systems theory will be discussed. Participants will understand the importance of working with interventions that are developmentally appropriate for all family members. Opportunities for participants to experience FPT interventions and apply interventions to case studies will be made available.

About the Presenter

Julianna Robinson, PhD, LPCP is an Assistant Professor at Chicago State University. Julie worked extensively counseling children and families dealing with Juvenile Diabetes and other chronic illnesses. Additionally, Julie was the director of the Children's Hospice Program in Cheyenne, WY. She is a graduate of the University of North Texas, where she was the Assistant Director of the Center for Play Therapy.
